

Class cellphone:

id: 0123456789

Attributes:

- size: 6.67 in
- color: "white"
- brand: "POCO"
- model: "F6 Pro"
- phoneNumber: 3111087297

Methods:

- makeCalls(phoneNumber, cellphone): Make a phone call to cellphone that has phoneNumber
- saveContact(name, phoneNumber): Save name and phoneNumber to contact list
- takePicture(): Capture what's in front of the camera

We made an object of the class Cellphone, which was based on my own cellphone. This is a specific instance of the class because the Attributes already have values assigned to them, as well as a specific identifier.
